

Air 1 is valuable to me locally because it informs me of local events that I may be interested in attending. Air 1 is important for our local community because of its impact on providing local information about Christian events that LPFM stations might not cover. Air 1 is in the PUBLIC interest because of its value in providing Christian alternative music. No other station is available in my community that broadcasts this type of music. It provides this music WITHOUT commercials and is locally supported through donations. PLEASE DON'T TAKE AWAY MY AIR 1 STATION!
